

CONSIDER DIFFERENT PERSPECTIVES

This questionnaire helps capture the different views of young people and policymakers before your engagement. Each group should answer the questions separately and then discuss their answers together.

After your discussion, check if you're on the same page. If not, think about how to create a supportive environment for collaboration.

FOR YOUNG PEOPLE

1. How do you think policymakers see your involvement in this project?
2. What would make you more comfortable sharing your ideas?
3. Do you feel your voice is equally valued in decision-making? Why or why not?

FOR POLICYMAKERS

1. How do you view the contributions of young people to this project?
2. Are you comfortable with young people leading parts of the process?
3. What do you do to ensure young people's perspectives are taken seriously?
